Philadelphia, Aug. 5.—With a
hearty God-speed from the president
of the United States and Mrs. Wilson,
the cargo-carrier, Quistconck, the
first ship built at the Hog Island
plant, was successfully launched
at 12:38 o'clock this afternoon.

Mrs. Wilson, with the president
standing at her side, christened the
ship, as nearly 50,000 persons stand-
ing in the broiling sun wildly cheered.

The president made no speech, but
in response to the urgent appeal of the
crowd, he waved his hat and
shouted: "Good luck to you."

Mrs. Wilson smilingly repeated
this sentiment.

The presidential party returned to
Washington after remaining in the
yard less than 30 minutes.

officials of the shipping board and
emergency fleet corporation, and
thousands of shipyard workers and
their families looking on the Quist-

TO PAY SOLDIERS UP UNTIL TIME OF GOING OVERSEAS

ASSOCIATED PRESS TELEGRAM
Camp Sherman, Chillicothe, O.,
Aug. 5.—An order directing that every
soldier in this cantonment for
overseas service be paid to the time
of his departure was issued yester-
day by Major General Harry C. Hale,
commandant. Complaint has been
received from France that other divi-
sions have been arriving in the
war area with pay due for the month
preceding their departure. The
metal utensils which make up the
soldiers mess kit are the lastest de-
partment found for saving at Camp
Sherman. It has been difficult for
the government to get enough alum-
inum and tin plate ware to supply
the entire army with regulation kits.
An order was issued here yesterday
by Major General Hale that troops
not bound for overseas service and
those not yet in divisional organiza-
tions be issued eating utensils of
commercial design. Exceptions will
be made when troops are on hikes
or the cantonment trenches, when
the commercial ware would be too
clumsy to carry in the soldiers packs.

SEAMEN COMMENDED FOR THEIR HEROISM BY SECRETARY DANIELS

ASSOCIATED PRESS TELEGRAM
Washington, Aug. 5.—Secretary
Daniels has commended Chief Boats-
wain's Mate, John K. Galieher and
Seaman Burton E. Emro and George
F. Grady of the U. S. S. Dodger II
for their freedom in saving the lives
of the men in the Spanish steamer
Serafina which vessel was destroyed
by fire at New York July 12.

Galieher whose home is in Brook-

seamanship and great risks taken.
Emro whose home is in New Milford,
Conn., seized a rope hanging over
the bow of the burning ship, climbed
hand over hand to the deck and
rescued a man who had fallen uncon-
scious on the deck.

Grady whose home also is in
Brooklyn was commended for rescu-
ing members of the ship's crew from
the water where oil from the Ser-
afina was burning.

MORE FACILITIES ADDED TO A NUMBER OF TRAINING CAMPS

ASSOCIATED PRESS TELEGRAM

Washington, Aug. 5.—Additional
facilities for training camps, one for
the new field artillery training center
at West Point, N. Y., and a tent
addition at Camp Upton, Long Island,
have been established by the war de-
partment, according to an announce-
ment today. The West Point camp
will include a 500 bed hospital and a
500 horse veterinary hospital.
Work on the Kentucky camp has
just been started by the construction
division of the army. The estimated
cost is upward of \$3,000,000. The
temporary tent camp on Long Island
will accommodate fifteen thousand
men.

Emerson Field, a new air service

FATALITIES ON AVIATION FIELDS SINCE SEPT. 1, 1917

OHIO WILL SEND
6,650 MEN IN AUGUST

ASSOCIATED PRESS TELEGRAM

Washington, Aug. 5.—Figures on
army aviation training fatalities in
this country made public today for
the period between September 1,
1917, and July 20, 1918, show a
total of 155 deaths, or an average of
6,000 deaths for each hour of actual train-
ing flight. Officials believe this is
equaling if not bettering the lowest
marks of the allied air service and being
far lower than the German and
Austrian fatality records.

An appended table shows that 74
officers, 65 cadets, 9 enlisted men
and 7 civilian instructors lost their
lives during the period covered.

STEAMER SUNK OFF VIRGINIA COAST BY GERMAN SUBMARINE

ASSOCIATED PRESS TELEGRAM

Washington, Aug. 5.—Sinking of
the American tank steamer O. B.
Jennings yesterday 100-miles off the
Virginia coast announced today, re-
vealed the presence of at least two
German submarines on this side of
the Atlantic. The second raider has
been operating off the coast of Nova
Scotia and nearby waters for sev-
eral days.

The American tank steamship O.
B. Jennings sunk by a submarine
yesterday about 100-miles off the
Virginia Coast and thirty survivors
of the vessel's crew have been
brought to Norfolk by a naval vessel,
the navy department was today in-
formed.

The captain and one boat contain-
ing 13 members of the crew are
missing.

Wireless calls from the steamer,
saying she was being shelled by a
submarine were received yesterday
between 11 o'clock and noon. Naval
vessels were sent at once to the
location indicated but arrived only in
time to pick up survivors, the vessel
having gone down. The Jennings
which was built in 1917 was of

YANKEE BOYS COVERED THEMSELVES WITH
GLORY AND FIGHTING IS SAID TO HAVE
BEEN THE BITTEREST OF THE WAR

GERMANS CONTINUE RETIREMENT TOWARDS THE AISNE ABANDONING GOOD DEFENSIVE POSITIONS

Important Gains Have Been Made by the French West of
Rheims and in the Soissons Salient While Part of Army
is North of the Aisne—Enemy Resistance Growing
Stronger from Fismes Which is Probably Due to the
Flood of the Vesle River Preventing Germans from
Reaching the North Bank.

ASSOCIATED PRESS TELEGRAM
With the French Army in France, Aug. 5, 1:30 p.m.—German resis-
tance along the banks of the Aisne and Vesle rivers is growing more obsti-
nate. Allied patrols which have crossed these rivers have met with the
sternest resistance.

In the neighborhood of Muizon on the south side of the Vesle, the Ger-
mans fought fiercely last evening before they were forced back. The battle
was especially severe around Vauves farm and the adjacent woods. On
the end of the line nearest, a heavy artillery duel is going on.

MET DEATH AT GUNS

ASSOCIATED PRESS TELEGRAM
Paris, Aug. 5.—The Americans covered themselves with glory in the
hand-to-hand fighting in the streets of Fismes yesterday when they cap-
tured the German base. The fighting is said to have been the bitterest of
the whole war, the Prussian Guards asking no quarter and being bayoneted
or clubbed to death as they stood by their machine guns.

There was a lull in the battle along the Soissons-Rheims front last night
and the breathing spell ended into this morning. The Germans are being
favored by the weather conditions which have transformed the Vesle river
banks into swamps and morasses, and they are making a stiffer stand here
than was anticipated.

(Compiled from A. P. Dispatches.)
Weakened by the defeat suffered
on the Soissons-Rheims front, the Germans
are retiring across the Aisne. Their
retrograde movement already has
averaged two miles on a seven mile
front. The French hold Braches,
have penetrated into Hargicourt and
are on the outskirts of Courtemarne.

The movement to the eastern banks
of the Aisne and Vesle are both de-
fensive in character. The German
holdings west of the rivers were not
very large, but would have served as
"jumping off" places in future oper-
ations. The allies now control the
heights west of each stream. Military
experts have called the Aisne the
path to Amiens and the enemy posi-
tions on the west bank were very im-
portant, if the drive for Amiens was
to be continued.

Between Soissons and Rheims the
Vesle virtually has been cleared of
enemy troops and Fismes is in the
hands of the Americans, having been
carried by storm. West of Rheims
the French have made important
gains and in the region of Soissons
the French are north of the Aisne.

Enemy resistance apparently has
been growing stronger from Fismes
east of Rheims. However, the Vesle
is in flood and as large swamps line
its courses west of Rheims, it is pos-
sible the resistance may be due to
the inability of the Germans to move
to the north bank.

Allied troops having flattened out
the Marne pocket, have not advanced
so rapidly during the last 48 hours.
The leading units keep in close touch
with the Germans, but it is probable
that heavier artillery will have to be
brought up if the Germans persist
in trying to hold at various points
along the Vesle. There is little doubt
in allied capitals that the German
crown prince will return to the north
of the Aisne. His resistance to
French pressure in the Rheims re-
gion not unlikely is for the purpose
of holding the allies from breaking
through and also to prevent them
from getting between the Vesle and
the Aisne before he can get his
troops to the northern stream.

The heights of the Chemin des Dames
offer the most suitable defensive position,
but even this would be precarious
if the French can advance north
of the Aisne in the Soissons region.
This would also threaten seriously
the enemy positions in the salient
about Montdidier and the line for-
ward north in Picardy and probably
accounts for the withdrawals north
and south of the Somme.

CASUALTIES OF AMERICANS IN MARNE BATTLE

(ASSOCIATED PRESS TELEGRAM)
Washington, Aug. 5.—Casualties among the American troops in severe fighting in which they have been engaged since July 15, when the German offensive was launched and halted at the Marne are now being reported in the daily lists from General Pershing, though no estimate of the total has yet been received. Today's army list contained 407 names—the largest number reported in a single day. Of the men named, 203 were killed in action, 35 died of wounds, and 148 were wounded—48 seriously, and 100 degree undetermined. The missing in action numbered only three.

In addition to the army list the marine list today contained 10 names—nine killed in action, and one died of wounds.

Men from 45 states are named in the lists with no predominating number from any one state. This was taken to indicate that they were scattered through many units. States not represented in the lists were Arizona and Delaware.

An additional list of nearly 300 names, bringing the total for the day to about 700, was checked at the war department today in preparation for publication in morning papers of tomorrow. No information concerning the list further than the fact that it was to be issued was to be had at the war department.

LOCAL DRILL TEAM ASSISTED IN THE FLAG DEDICATION

The local drill team of the Moose order of this city, accompanied by nearly a dozen auto loads of members of the order went to Coshocton Sunday afternoon and assisted in the dedication of a large service flag, the exercise taking place at the Sixth street theatre.

The principal orator of the day was Col. Geo. H. Hamilton of this city, and Col. Hamilton delivered one of his characteristic patriotic addresses which was listened to with rapt attention by the big audience, the theatre being filled to overflow.

The drill team gave an exhibition of fancy maneuvering which was heavily encored and the team made a hit.

Musics was furnished by the Newark Moose Quartette composed of Fred Cole, John Garrity, Clyde Cole and Emil Lautenschlager. They sang several selections and were repeatedly encored being forced to respond a half dozen times.

The Coshocton Lodge entertained visitors from this city after the program and all present report a very enjoyable visit.

HERE'S CHANCE FOR COMMISSION IN THE SERVICE

Capt. A. B. Davis of Washington, D. C., is in the city to enlist expert auto mechanics who also have executive ability. In addition they must be above the draft age. The captain will recommend these men to the ordnance department and if they can pass the requirements they will be given commissions and sent wherever needed. These men must not be confused with inspectors as they will be used behind the lines or wherever needed in the service.

Capt. Davis can be found at room 108 Warden Hotel and will be there until tomorrow morning at 9 o'clock. Anyone not able to call before that hour can leave their application at the Chamber of Commerce and it will receive the proper attention.

(Continued from Page 1.)

they hope that it will be finally passed by September 1.

Provost Marshal General Crowder, in a statement submitted by Senator Chamberlain, suggested September 5 as the date for the national registration of men within the proposed new ages.

Weekly registration of youths attaining the age of 21 during the next few weeks was proposed by General Crowder as the only means of obtaining the 200,000 men to be called to the colors in September. This could be done by presidential proclamation and would add about 80,000 to the number of men available.

The principal portions of the administration's man power bill which will extend the draft ages from 18 to 45, presented to congress today as amendments to the original draft law are as follows:

"The president may draft such persons liable to military service in such sequence of ages and at such time or times as he may prescribe. A citizen or subject of a country neutral in the present war who has declared his intention to become a citizen of the United States shall be relieved from liability to military service upon his making a declaration in accordance with regulations as the president may prescribe, withdrawing his intention to become a citizen of the United States and he shall for ever be debarred from becoming a citizen of the United States."

The provision referring to persons engaged in industry and agriculture provide for their relief from military duty would be amended to read:

"Persons engaged in occupations or employment found to be necessary to the maintenance of the military establishment of the effective operation of the military forces or the maintenance of national interest during the emergency."

The principal section would provide:

"All male persons between the ages of 18 and 45 both inclusive shall be subject to registration in accordance with the regulations to be prescribed by the president and upon confirmation by the president or other public notice given by him or by his direction stating the time or times and place or places of any such registration, it shall be the duty of all persons of the designated ages, except officers and enlisted men of the regular army, the navy and the national guard and naval militia while in the service of the United States to present themselves for and submit to registration under the provisions of this act."

"Persons shall be subject to registration as herein provided who shall have attained their 18th birthday and who shall not have attained their 46th birthday on or before the day set for the registration in any such proclamation by the president or any such other public notice given

by him or by his discretion and all persons so registered shall be and main subject to draft into the forces hereby authorized unless exempted or excused therefrom . . . the president may at such intervals as he may desire from time to time require all male persons who have attained the age of 18 years since the last preceding date of registration and on or before the next date set for registration by proclamation of president except such persons as are exempt from registration hereunder, to register in the same manner and subject to the same requirements and liabilities as those previously registered under the terms thereof."

Senator Chamberlain said the committee had been called to meet tomorrow to begin consideration of the bill and that he hoped to report it out within a few days.

Senator Curtis, of Kansas, and Senator Jones, of Washington, announced themselves in favor of summoning a quorum of the senate so the bill can be taken up immediately after it has been acted upon by the committee.

Senator Chamberlain also presented a communication from the Secretary of War, showing the number of men affected by the bill. According to these figures, 2,398,000 men between the ages of 18 and 20 inclusive would be subject to military service. This number 601,000 would be men between 32 and 45.

Chairman Dent, of the house committee said he had no immediate plans except to expedite it as much as possible.

After carrying out the program for July and August General Crowder pointed out that only 100,000 of the 1918 registrants would be left on September 1 for subsequent calls.

"The second and more difficult question," General Crowder's statement added, "is how we can supply

in time the one hundred and fifty thousand men required for each of the succeeding months of October, November and December. The British-Canadian treaty would help about 50,000 men, which is not even the conventional 'dop in the bucket.'

and search is now being made for the second boat containing the captain and 13 men.

First reports to the navy department today placed the number of survivors landed at 30, but later it appeared that 32 might have been picked up.

Only meager details of the sinking have yet been received.

Presumably the Jennings was sent down by shell fire but this will not be definitely known until naval officers have had an opportunity to question the survivors. All hands on board got away in the small boats and as the weather was fair it is expected the missing men will be found either by patrols or passing steamers.

Steps to deal with this latest raid are being taken by the navy, department and patrol boats and seaplanes already are searching the coast waters. Officials reiterated that the movement of troops to France will not be interfered with.

Last official information of the operations of submarines in Canadian waters came to the navy department last Friday in the report of the sinking of a British fishing schooner.

Unofficial reports said the submarine was operating there as late as Saturday, but even if it had started south Friday she could not have reached the position where the Jennings was destroyed Sunday.

Millions of Hands in Poker.

As to what amount of chance there really is in a game of poker it is not indefinite as it might at first seem, as by mathematical computation it can readily be demonstrated that out of a pack of fifty-two cards there can be arranged 2,598,960 different hands of five cards each, according to the opinion of the Philippine solicitor general. When a player sits down to play a game of poker in each hand he may receive any one of those 2,598,960 hands; and, if the cards he honestly shuffled and dealt, it is purely a matter of chance as to which of these hands he will receive.

HOPE FOR SAFETY OF LT. WANAMAKER REACHES FATHER

(ASSOCIATED PRESS TELEGRAM)

Columbus, Aug. 5.—Some hope for the safety of Lieutenant Walter Wanamaker, son of Supreme Court Judge R. M. Wanamaker, who has been reported missing since July 2, after an aerial engagement in which he participated over the German lines in France, is contained in a letter received by Judge Wanamaker today from Major Homer E. Hartney, commander of the 27th Aero squadron of which young Wanamaker was a member.

The letter, written the day following the aerial battle, says:

"We have about come to the conclusion that your son has been forced to land or been shot down on the enemy side of the line in yesterday morning's prolonged fight. We have all been hoping against hope that he and Lieutenant Elliott, another of our officers, had merely had a forced landing in France. But as time goes on and they do not return we are about compelled to believe that they both had to descend in German occupied territory. Of course we trust that they are both all right, but it is an extremely anxious time for us, and we know it is more for you. We cannot get over the feeling that he will come in shortly and cannot realize that there is no possible hope of seeing either of them again until after the war. 'Wanny,' as we all call him, has been with us so long that it is like losing a brother to have him go."

"Yesterday the greatest air-battle to date staged by an American unit took place and 'Wanny' was right there and did his part in driving down four German aces and a way the remainder of a patrol of nine picked German fliers. Here is the German communiqué published to-day on the flight:

"Out of a flight consisting of nine American plane, four were shot down yesterday. Lieutenant Vdet won his thirty-ninth and thirty-fourth; Lieutenant Lowden Hardt his thirty-third and thirty-fourth; Lieutenant Freedrich and Sergeant Thom shot down their twin-seat machines."

"I might add to this that they lost four and we only two. It was a prolonged battle-royal, lasting 30 minutes continuous fighting. Some of our machines shot away all their ammunition and remained to lend moral support to their comrades. We did not withdraw until the Huns defeated, dived away. Thus ended the first real 'brush' with the enemy. We hope and pray with you for our boys safety. But whatever the tidings, be proud of the noble fight put up by your brave son and our brave comrade in the first big American aerial scrap."

Major Hartney adds postscripts saying that notes have been dropped behind the German lines asking the fate of Wanamaker and Elliott, and that such notes generally are answered within 10 days; and that young Wanamaker's personal effects are being gathered together and will be shipped in due course.

\$540,000 W.S.S. Drive Starts Tomorrow

To Date Licking County People Have Bought \$751,692 Worth of War Savings Stamps--Half Million More Needed to Put Licking in the "Over the Top" Class with Ashland, Morrow, Morgan and Knox Counties.

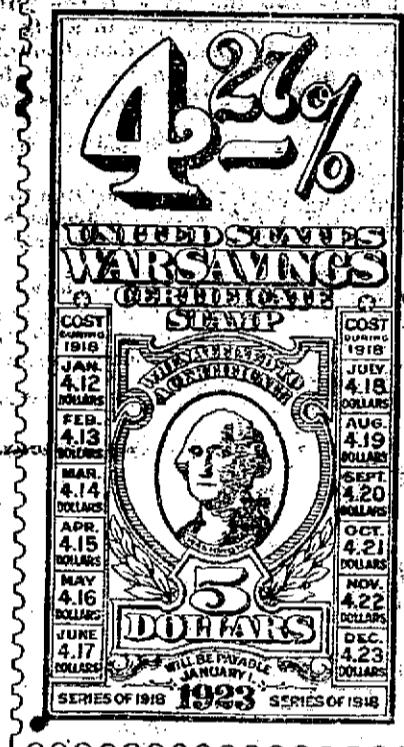

Only one county in Ohio (Hamilton) is ahead of Licking in \$1,000 War Savings Society memberships. This week's campaign will determine whether this leadership is to continue. Every buyer of 200 W. S. S. (August price \$838) becomes a member of the Limit Club and his or her name will go on the "Victory List" bulletin board just erected in the Newark Court House park.

Licking County's War Work Organization of 500 men, the organization that made a brilliant success of the Third Liberty Loan and that produced a wonderful result in the recent War Chest drive, is to go to work tomorrow on the sale of \$540,000 worth of W. S. S.

Be ready to receive the solicitors, sign the pledge promptly and encourage these men in the patriotic service they are rendering. If everybody does his or her part, the goal will be reached quickly.

War Saving Stamps Are Tax Free

They are a splendid investment, because they pay a net income of 4.27%. Their security is the best. If that should fail, a ten dollar bill would be worthless and a silver dollar have only bullion value.

Their convenience as an investment is striking. Buy a War Savings Stamp for \$4.19, and your interest begins. Buy a hundred dollars worth for \$83.80 in August, and collect \$100 Jan. 1, 1923--no income taxation; no state taxes!

Any individual may buy stamps to the face value of \$1000 for \$838.00, and the money starts earning without further thought or effort.

That's reason enough for anybody with money who wants an absolutely safe investment at good interest, but it isn't the only reason why you should buy.

Manifest Your Patriotism

Back of it all the big reason is that the government needs the money. The government's needs are your needs, for in this country the people are the government.

The question this war will settle is whether the people shall be ruled by monarchs, or whether they shall rule themselves.

Stripped of all disguises, government by monarchs encroaches on individual liberty, government by the people extends liberty.

AUDITORIUM.
"The Hell-Hound of Alaska." Large crowds yesterday attested their pleasure by outbursts of applause throughout the presentation of the photoplay production "The Hell-Hound of Alaska," in which Wm. S. Hart and Enda Markey and a large cast of players were seen at the Aladdin Theatre. In this startling photoplay drama of Alaskan life, Hart and Miss Markey made a magnetic combination as another most remarkable picture was given. The picture was given today together with the two reel feature "Mount-Mack" Scenette comedy. "Her Blighted Love." You cannot afford to miss seeing "The Hell-Hound of Alaska" or "Mount-Mack." Hart plays a role that is full of life. From start to finish, it's a different picture to any so far played by Hart, the story is a little different, and in an unusual atmosphere. It's a Thos. H. Hart production, not an Arteract, but it's good.

Clara Kimball Young. Clara Kimball Young and her own company come to the Auditorium theatre tomorrow and Wednesday in her latest

The Widow's Mite?

Dick Tash, as played by Julian Eltinge, the man who pays more dress-maker's bills for himself than any other in the world, and who wears a six-piece suit every day, is the lastest Paramount picture is an enterprising young New Yorker. He decides that "there is money in cows" and establishes himself on a Western ranch. Now he obligates to disguise himself as a country doctor to entrap a crook who is trying to steal his farm, and how he finally wins out against all sorts of odds, makes a thrilling and pitifully humorous picture which is well worth seeing.

"The Widow's Mite," written especially for Mr. Eltinge by Marion Fairfax and was directed by William C. de Mille, famed as director of both stage and screen versions of "The Widow's Mite," director of "Caravan" starring Geraldine Farron, and pictures starring Blanche Farnum and others. The cast that was chosen to support Mr. Eltinge in "The Widow's

Widower" and artist not thought of hitherto, which cannot help but be of service to both.

The circulation of The Newark Advocate has been audited by the Audit Bureau of Circulations, the recognized authority on expert circulation examination.

NEWSPAPER EXCHANGES.

A stir was created in many newspaper offices when the United States War Industries board issued a ruling that newspapers, owing to paper shortage, are not to be allowed to give out any free exchanges.

The board was led to make this rule by the careless habit of many newspapers in maintaining exchange lists. Many publishers grant exchanges to every brother publisher that applies, and toss, the unopened papers into the waste basket. This aggravates the serious shortage in the paper supply.

However, a well-regulated exchange list is an aid to the publication of a good newspaper. The government will do well not to regulate it too drastically. The government must remember that it gets its principal support, in disseminating information about the war, from the newspapers' press. Anything that helps the publishers print better newspapers, helps build up the war morale of the community.

Good ideas about the war largely circulate from one newspaper to another through the exchanges. The public may laugh about the editor with his scissors and paste pot. But the more an editor works and studies over his exchanges, the more bright ideas he collects and can pass on. If exchange lists are wholly cut off, the circulation of much good war stuff that the public ought to have will be impeded.

Publishers can comply with this order of course by charging each other up with the price of their papers sent in exchange, so that where the papers are given for the same price, no money will have to change hands. But it would seem as if the government would do well to allow newspapers to maintain a small list of exchanges, to encourage the continued free circulation of ideas and information helpful to war and community purposes. The government order goes still further in directing that no free copies of the paper be distributed. The Advocate is complying with the government's order and will continue to observe the directions issued by the government.

THE BALANCE OF POWER

The forces in Europe fighting for autocracy just about equal those fighting for democracy. England, France and Italy, are somewhat superior to Germany, Austria and Turkey in population. But as autocracy can control and command its people better than democracy, as fighting units it is nearly even.

The entrance of the United States throws the balance to the side of democracy. But it is our hope that we shall never again need to engage in a European conflict.

If the German people prefer autocracy, we can't help it. There is however a pretty well defined determination that Kaiser Wilhelm must go. After the war it looks as if the forces of autocracy and those of democracy in Europe would still be about even.

That leaves Russia out of consideration. Russia thinks she is democratic. But in her stupid folly, she is helping the power that is doing the most to crush democracy. The situation leaves Russia the real balance of power in the world. If she in her ignorance is seduced or bulldozed into servitude to Germany, the balance of power in Europe remains strongly on the side of autocracy. We shall have new wars in prospect.

Thus Russia has the fate of the

"OVER THE HILLS TO THE POOR HOUSE" — A PREDICTION.

world in her stupid, ignorant, childlike hands. She is full of good impulses, but is blind to the ways of the world. In her simple good faith, she accepts lies at their face value. She has been the easy tool of German spies and propaganda.

Dealing with Russia is the most tortuous international problem America ever had to meet. It stretches far in the future. We may beat Germany by our armies, and then Germany may by propaganda win over the credulous and simple minded Russians to back her wicked cause.

However, let us not paint too black picture. The German do not understand the temperament of democratic people as well as they think they do. Russia is essentially democratic. Her good will can not be won by shooting down her peasants and stealing her crops. By a generous helpfulness in her time of need, backed by military force as a last resort to put down anarchists and German deceivers, the democratic people still have the best chance to win Russia.

Readers' Viewpoint

Dim Auto Lights.

Editor of The Advocate—Why are not all drivers of autos compelled to dim their lights when running after night in this city? Have the residents who pave the streets upon which autos run and wish to spend these warm evenings upon their porches, no protection from the brilliant, glaring, undimmed lights of autos? They are a menace also to pedestrians. The larger per cent of autos are dimmed and these drivers cannot understand why all should not comply with the law as they do. There is no necessity for even one undimmed light. Yet some carry from one to five. Reader.

Property Classification.

Editor of Advocate. The constitutional provision for a general property tax in Ohio was born in an era when it was good public policy for our government to offer land free to those who would cut down the trees, while today, it is sound public policy to offer land practically free to those who will plant more trees.

Time has wrought this change. Time has transformed our state from a mere agricultural exhibit into an empire of industrial, commercial and financial greatness. The onward march and the civilizing effect of modern trade has brought us to a serious consideration of vast and complex economic functions of production, distribution and consumption, involving methods and transactions undreamed of in the baby days of our commonwealth.

When the general property tax with its limitations was written into our constitution the entire value of the acreage of the state did not equal the present assets of a modern banking institution. The total amount of mortgages written in one year is fifteen times greater than the total acreage value at that time, the value of our annual manufactured output is thirty times greater.

We have our movements of depression, of which this is one, when we feel in our resentful way that a Providence which can put such thin legs at one end of a person and such a thick head at the other is not a very good judge of relative values.—Ohio State Journal.

And yet this work of Providence, so casually and incompetently thrown together, as it were, will set itself up to be a judge of wife's relative values.

Did You Know?

That a ballad is a popular kind of narrative poem adapted for recitation or singing? The name is of Italian origin and originally meant a dance-song. Burger may be said to be the creator of the modern ballad, his "Leonore" being a classical and popular example. Coleridge's "Ancient Mariner" is perhaps the best example of an English ballad.

Eve Was Some Woman at That.

It was a wonder, true enough. Yet you'll admit, mayhap, she couldn't shell a mess of peas for dinner in her lap.

It Sounds Reasonable.

Dear Editor—Last week the circus on wheels went by our place and the two youngsters were out looking with eyes and mouth both wide open. And when the truck with the elephants went by I heard: "Yes, sir; they are elephants. I saw hisson's bill." The next moment they made mad dash for the house and startled me by saying: "Mother! There is going to be a flood." Now I couldn't see the connection between elephant bills and floods so, of course, asked "why?" "Because, mother; Noah is moving his ark again." Cousin Jane.

It's Matter What

other tonics or iron remedies you have used without success—well, you owe it to yourself to make the following test: See how you can work or play after you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron, three times a day after meals for two weeks. Then

test your strength again and see how much you have gained.

Nuxated Iron will increase the strength and endurance of delicate nervous run-down people in two weeks' time in many instances.

Characteristics. Nuxated Iron, which is easily absorbed and recommended by physicians and which is now being used by over three million people annually, is not a secret remedy, but one which is well known to physicians everywhere. Unlike other iron articles, Nuxated Iron appears on the package. If you have taken other iron products, remember that they are entirely different from Nuxated Iron which has been used and strongly endorsed by many physicians formerly connected with well-known hos-

pitals.

Therefore I strongly advise those who feel the need of a strength and blood builder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken other iron products, remember that they are entirely different from Nuxated Iron which has been used and strongly endorsed by many physicians formerly connected with well-known hos-

pitals.

Results.

Many patients who have been taking Nuxated Iron for a long time have been greatly relieved of their various complaints. Some have even been cured of diseases which were thought to be incurable.

Conclusion.

Therefore, if you are suffering from any disease, and are not able to get relief from any other iron product, try Nuxated Iron.

Conclusion.

COUNTRY HOME OF GEORGE MATTINGLY BURNS TO GROUND

The large and commodious residence of the late Bernard Mattingly, Jersey township, four miles west of Alexandria, burned to the ground at 1 o'clock this morning. All the contents were also destroyed.

The house was occupied by George Mattingly, wife, and three children, and all had narrowly escaped from the burning building, being partially overcome from smoke, causing near suffocation. The fire is believed to have started from defective flue.

Soon after the fire was discovered an alarm was given, but the flames had made too great a headway to save any of the household contents by neighbors who arrived on the scene shortly afterwards. The family escaped in their night clothing.

The house, valued at approximately \$10,000, was partially insured, but the contents are a total loss.

MICHAEL J. BARRY WELL KNOWN HERE DIES AT COLUMBUS

Michael J. Barry, aged 59, safety director of Columbus, and former city councilman and police sergeant, died at 9:40 o'clock Sunday night, at Mt. Carmel Hospital, Columbus, from internal hemorrhages, believed to be due to stomach disease. He was first stricken late Friday night at his home, North Hague avenue. He was removed to the hospital following two other attacks.

Mr. Barry was born in Ireland and came to America when mere lad, settling in Boston, Mass. Later he went to Columbus at the age of 19. He served in the United States army for five years and was appointed a police sergeant in 1896, remaining on the force for a period of 13 years.

For 18 years Mr. Barry served as a traveling salesman and made almost monthly visits to this city. He was one of the leading Eagles of the state, and no gathering was complete without him either in a state or district meeting. He was very eloquent and ever ready to respond when called upon at public gatherings or at fraternal meetings.

Mr. Barry also served as city councilman in Columbus, and succeeded in securing the erection of the Fourth street viaduct, Columbus, one of the finest civic improvements ever made in the Capital City. He has two sons in the army—both located at Camp Sherman.

HOLMES TREED BY AN ANGRY BULL

While State Game Warden Penrose and Robnett were riding along the road north of Granville, above the roar of the engine they heard frantic calls for help. Over in the field they saw a bear running and dry on a post. Holmes, the noted fisherman, and, in the foreground was a Mr. Bull, pawing the earth and roaring in triumph, having at last treed an angler.

Mr. Penrose, the latter of whom had been shot in the leg, was severely wounded by the bear's claws and was unable to move. Holmes, however, was able to get the bear to the ground and tie it up.

Mr. Penrose, drove his machine over in the field alongside the post and Mr. Robnett assisting Mr. Holmes, who was very weak from the bear's claws, and, in the foreground was a Mr. Bull, pawing the earth and roaring in triumph, having at last treed an angler.

In witness whereof, I have hereunto subscribed my name and caused my official seal to be affixed, the day and year first above written.

GREAT SHIP

(Continued from Page 1.)

ing in the words of Chairman Hurley
of the shipping board, "another mile-
stone in America's progress in the
war against the German govern-
ment."

The Quiscomet, of which Mrs.
Wilson was sponsor, is the first of
the large cargo-carrying vessels to
be launched at the Hog Island yard
—the largest shipyard in the world.
It will be followed by another with
that, more than 50 ships will be
launched by the end of the present
year. It was no mere incident in a
nation's shipbuilding program that
brought the president and Mrs. Wil-
son to the scene of this achievement,
said Chairman Hurley, who was
the principal speaker at the launch-
ing. It was the beginning of an
epoch in the nation's history.

"This launching marks another
milestone in America's progress in
the war against Germany," said
Chairman Hurley. "It marks the be-
ginning of quantity production of
ships in all the yards of the United
States.

"It is doubtful whether any nation
ever would have undertaken a ship-
building program on such a large
scale if Germany had not plunged
the world into the war."

Mr. Hurley continues: "We are
in it now and we are going through
with it. We are producing more
tonnage today than the submarines
are sinking, and from this time for-
ward our great task will be to re-
place the tonnage that was lost in
the days when we were far behind
in the nerve-racking race with the
submarines of the sea."

"We have made tremendous
strides in the shipbuilding program,
and I doubt whether I will ever have
a better opportunity to state that the
vast scope of this program was due
to the vision of the president."

"We are going through with the
shipbuilding program to the finish
and we are going through with the
war to a finish. The American gov-
ernment is planning for a long war
because enduring peace will not be
in sight until the militaristic system
of Germany is broken. Nothing else
will convince the Germans of the
supremacy of right over might.
Nothing else will convince them that
weak nations are not the natural prey
of the strong."

"Even then, the shipbuilding pro-
gram of America must go on. It
will take five years to complete the
program and place at the service of
mankind a merchant fleet that will
make enduring peace by bringing na-
tions closer together. The eastern
and western and northern and south-
ern states were brought closer by a
nation-wide system of railroads. The
end of the war will find America
master of the process of quantity
production of ships. We will build
ships for ourselves and for the
world."

"The men who have worked on
this ship launched today and on other
ships that are to be launched, and
will be launched, are makers of a new
America."

POLICE COURT WAS

BUSY PLACE TODAY

There was a busy slate in police
court this morning, and a number of
cases were disposed of by Mayor Ath-
erton. J. S. Parker, aged 70 years, who
was arrested on disorderly charge,
was found to be in a serious condition
and was released.

A comedy by colored people was en-
acted in police court when the case of
William Burton, colored, of Mt. Ver-
non was heard on an investigation
charge. He accused his wife of
Newark that she had soiled his clothes.
It seems that Good and Burton
had been socially inclined and were
treating one another. Good stated
he had his pocket book picked it
up and put it in his pocket.

When he returned it Good claimed
\$10 was missing. But another pal of
Burton with a capacity for "flicking",
computed the amount spent by the trio,
and by subtracting deducted what
Good could not have had that much
left after he had treated so often. They
were dismissed.

A. Wade was arrested and fined
\$10 and sent for spending on Cedar
street and Sergeant Gross, accompa-
nying another soldier, was arrested for
giving their Marmon car the limit in
speed of Granville street. They also
were both from Camp Sherman. They
were both from Camp Sherman.

The case of Ted Hussen, charged with
petit larceny, has been continued until

Chairman Hurley stated that the boats
have been taxed to capacity for the
week-end and that next season will
probably see some improvements in
the concessions.

The concessions all did a thriving
business and the clerks were kept on

The dancing pavilion was crowded but
the ice cream and soft drink stands did

BIG W. S. S. DRIVE STARTS TOMORROW EVERYBODY READY?

The total cash sales of W. S. S. in this county to August 1 is \$751,692. The sale of another half million dollars' worth puts Licking "over the top."

The Licking county war work organization's four-day drive to sell \$540,000 worth of War Savings stamps starts tomorrow. Every citizen—man, woman and child—is asked to buy War Savings stamps this week. The sale of a half million dollars' worth of W. S. S. puts Licking "over the top."

Licking county is now second in membership in the \$1,000 War Savings Society. It is ahead of every county except Hamilton.

The 200 Newark members of the war work organization will meet at 6 o'clock in Masonic temple this evening for final instructions preparatory to the four-day W. S. S. drive which opens tomorrow. Twenty-five Newark men leave tonight to visit every township, carrying pledges—cards and supplies for the country workers.

Licking county school children lead the state in the purchase of W. S. S., but for the county to "go over the top" requires the best efforts of the grown-ups, too.

A War Savings stamp is a miniature United States bond of \$5 denomination. It will always be worth all you pay, plus interest. Uncle Sam guarantees it.

War Savings stamps are the world's best investment today. They are tax-free; pay 127 per cent; the interest accumulates; the stamps mature January 1, 1927, and the government positively guarantees they will never go below par. Your money

back, too, with interest, anytime upon 10 days' notice.

Five hundred men representing the war-work organization go to work tomorrow to put Licking county "over the top" in war stamp sales. Give the solicitors a prompt and encouraging response. Buy all the W. S. S. you can.

The Wehrle tank made a trip to Licking county Saturday night, and will visit other sections of the county during the W. S. S. drive this week.

Frank L. Beggs, who spoke to a large crowd on W. S. S. at Utica, Saturday night, addressed another visiting audience in Hebron, Sunday night.

The name of every buyer of 200 W. S. S. (August price, \$828) is to be printed upon the big bulletin board erected on the west side of the courthouse park. Join the "victory list." If you now own some W. S. S. buy enough more this week to make your total 200, and get your name in the "victory list."

RYE FOR FEEDING.

Columbus, Aug. 5.—In response to a great number of requests from Ohio farmers who desire to feed rye to the hogs, the United States food administration in Ohio announced today that permission had been secured from Washington to authorize the use of rye for hog-feeding, but only until September 1. The regulations prohibiting the use of rye for feed have not been changed. Federal food administrators are merely authorized to grant such permission here, in their discretion, it is necessary.

Versatility is a good asset, but even the man of many callings should answer the call of his country.

WHAT TO SAVE AND WHAT TO USE

SAVE SUGAR. Two pounds per person per month is the American honor ration. Try to eat less and add to the National surplus for canning. Do this that the fighting forces may be kept fully supplied, and that England, France and Italy may receive their greatly restricted requirements.

SAVE BEEF. Food for fighting men. Save the large carcasses for them by restricting yourself to small cuts, by-products and trimmings—hearts, tongues, livers. We have enough increase supply of pork this summer to permit economical expansion in its use; to relieve the pressure on beef.

SAVE WHEAT. Keep on saving, though the harvest is large. Build up reserves by persistent conservation. Without American wheat saved from the last harvest the Allied cause would have been lost. The margin next year must not be so narrow.

USE FRUITS. Take advantage of the natural sugar in fruits. Can without sugar. Add sugar later, when it will be more plentiful. Dried fruits, such as raisins, dates, figs have much sugar in them. Use honey, maple products and syrups when available.

USE VEGETABLES. Make local vegetables fill as large a place as possible in your diet, thus conserving not only meat and wheat, but transportation and labor. Don't use canned goods now, while the fresh are available.

USE DAIRY PRODUCTS. Always give the children plenty of milk, milk products and eggs. Use them yourselves freely now, and thus conserve for export.

USE FISH. New species are being popularized and supplies increased. Eat this nutritious but perishable food several times a week and let the non-perishables go abroad.

Can Green Beans Now.

The canning season is on. While fruits are scarce there is a great abundance of vegetables.

There is a bumper crop of green beans. None of them should be allowed to go to waste. They will take the place of meat next winter.

Results: Our efforts during the fiscal year 1917-1918 sent the Allies \$44,600,000 more meat and fats, and 36,300,000 bushels more cereals than during 1916-17. From American sources of supply also 1,956,400,000 pounds more sugar was shipped than the pre-war annual average.

How many pounds will you save for them in 1918-19?
